Ian Laski

General Manager, Asia Pacific, Infrastructure

BIOGRAPHY

Ian Laski holds concurrent roles as the president of Bechtel's Asia Pacific region as well as general manager of the Asia Pacific market sector of Bechtel's Infrastructure global business unit. He is based in Singapore.

Prior to his current assignment, Laski was operations manager for Bechtel's Petrochemicals business line, which he helped expand after moving to Houston in 2012. Laski has been previously based in Asia and Europe, where he worked in project management and business development positions on major petrochemical developments. He also led the effort to establish Bechtel's Warsaw office, overseeing our High Value Engineering Office in Eastern Europe.

Laski has nearly two decades of experience in management positions on oil and petrochemicals projects, including seven years in Asia, managing polymer plant construction in Thailand and China.

He joined Bechtel in 1996 as project engineering manager on a heavy oil extraction project in Canada, following seven years in engineering roles for British and French companies on offshore oil projects. He began his career in 1987, as a construction engineer, on heavy infrastructure projects in the UK.

Laski holds a Bachelor of Science degree in civil and structural engineering from the University of Greenwich in London. He is a registered professional Engineer in Canada.

Bechtel is among the most respected engineering, project management, and construction companies in the world. We stand apart for our ability to get the job done right—no matter how big, how complex, or how remote. Bechtel operates through four global business units that specialize in infrastructure; mining and metals; nuclear, security and environmental; and oil, gas, and chemicals. Since its founding in 1898, Bechtel has worked on more than 25,000 projects in 160 countries on all seven continents. Today, our 58,000 colleagues team with customers, partners, and suppliers on diverse projects in 40 countries.
