Section 2: Notice Details

Owner Name:	**POLSKIE ELEKTROWNIE JĄDROWE SPÓŁKA Z OGRANICZONĄ ODPOWIEDZIALNOŚCIĄ**, a limited liability company with offices at Aleje Jerozolimskie 100, 00-807, Warsaw, Poland
Project Description:	Nuclear Power Plant, utilizing AP1000® reactor technology, composed of three (3) specified reactor units and all other nuclear and non-nuclear facilities, with installed capacity up to 3,750MW.
Project Location:	Municipality of Choczewo (Lubiatowo-Kopalino), in the Republic of Poland.
Notice Type:	Company Prequalification and Tender Notice
Bidding Type:	Competitive bidding
Notice No.:	RFQ No. 559033
Description:	1. Experienced and qualified drilling, services company capable of conducting subsurface investigations at the project location for the Poland Nuclear Power Plant. The scope of work includes, but is not limited to, providing drilling and probing rigs, pumps, probes, samplers, drilling mud, grout, tools, equipment, labor, supervision, technical and professional services, materials, consumables, and supplies required to complete geotechnical and geological subsurface investigation. The detailed scope of work will be outlined in the specifications, scope documents, and other contractual materials provided to the Company. Interested parties shall have documented, proven experience in planning the services associated with completing the work; providing equipment which is new or like new condition; and proven experience and providing all required quality, safety and execution documentation related to completion of the subsurface investigation scope of work, specification, and other subcontract requirements. Interested companies must register/update their Company'sinformation in Bechtel's iSupplier portal at https://supplier.becpsn.com link.and select Commodity Code CY05 as their specific area of interest. Bechtel shall provide the interested party the Poland Prequalification Questionnaire where interested party would complete with response to Bechtel for review. Bechtel notes that previous proven Drilling Services of similar scale and complexity which includes completion of geotechnical/geological boreholes with Standard Penetration Testing (SPT) and intact sampling and cone penetration tests (CPTs) will be mandatory and additional documentation / evidence of capability and capacity to self-perform key elements of the scope will be required. 2. The prequalification criteria shall be included in the prequalification Questionnaire including demonstration of (i) experience in furnishing subsurface investigation scope in the past or current projects which is equivalent or equal to the complexity of the Poland AP 1000 project, (ii) availability of new or like new rig equipment in performance of scope, (iii)acceptable safety record and compliance to quality requirements including current ISO 9001 certification, (v) compliance to certification of legally mandatory requirements, (vi) financial standing (solvency), and (vii) organizational capabilities.

	3. Upon Bechtel's evaluation of your response to the Poland Prequalification Questionnaire, Bechtel will notify if your Company meets, conditionally meets, or does not meet the prequalification requirements that closely match the Your Company's submission of Prequalification Questionnaire does not automatically qualify your Company to be prequalified. 4. Each prequalified Company will be required to execute a Non-Disclosure Agreement (NDA). 5. Companies meeting the prequalification criteria and who have executed the NDA will be invited to submit the proposals for subsurface investigation services. 6. The Request for Quotation (RFQ) shall include the award criteria, scope of work, specifications, drawings, datasheets, terms and condition, and schedule data. The RFQ shall be issued via Bechtel's Digital Supply Chain System automation tool. 7. The RFQ document will include the subsurface investigation scope, including but not limited to mobilization of adequate number of equipment and staff to the project site, movement of equipment on site, completion of investigation services and demobilization. The technical services may include, but is not limited to, completion of investigation points with approximate quantities of borings with SPT expected to be on the order of 616 locations with total of 9738 linear meters. The quantity of continuous core borings is expected to be on the order of 177 locations with total of 2929 linear meters. The quantity of CPT soundings is expected to be on the order 235 locations with total of 2882 linear meters. The quantity of test pits is expected to be on the order of 44 locations, all to maximum depth of 4 meters. Working platforms and access are required for all the investigations points listed above, although the earthworks required will be completed under a separate contract. 8. Proposal may be provided in EURO, PLN, USD. Furthermore, the proposals will be requested as firm fixed unit rates (not subject to any price adjustment) with agreement to unit rates for change management. 9. Award criteria shall be based on a combination of the highest evaluated scored bidder with consideration of the following key criteria in order of relevance, together with cost which will determine the final decision for award which will be detailed further in the Bid Document(s) and during the RFQ phase. The bidder shall show self-performance capability and capacity for each of the key criteria relevant to the scope of work for this package. a. Minimum 5 Years Previous Proven Relevant Experience b. Technical Capability c. Delivery Management Team d. Health, Safety and Environment Qualification e. Quality Program Execution f. Schedule Compliance 10. Any Companies that do not meet the mandatory compliance requirement will be excluded. 11. The procedure for the Company to gain access to classified information, as required, will be subject to compliance with the executed NDA, Applicable Export Laws, Applicable Laws, and Applicable Safeguards Laws which will be included in the RFQ document.

Deadline (Pre-qualification Submittal):	15 July 2025
RFQ Document Issuance:	25 July 2025
Supplier Proposals Due:	16 September 2025
Order Award Date:	9 January 2026
Subcontract Completion Date	January 2027
Updates:	Not applicable
Soft Copy:	PDF copy of the Tender (Bid) Notice to be included
About Contracting Authority:	**BECHTEL POLSKA SPÓŁKA Z OGRANICZONĄ ODPOWIEDZIALNOŚCIĄ** engaged in the business of engineering, procurement, construction, and project management design and development of commercial nuclear facilities, including facilities equipped with the AP1000® passive-safety pressurized water reactor technology.

Section 3: Legally mandatory compliance requirement, including but not limited to:

Sanctions	The Company shall certify that (i) is not subject to Sanctions, and (iii) do not present a threat to the security interests of the Poland, in particular that they are not (a) a Russian national, or a natural or legal person, entity or body established in Russia or (b) a legal person, entity or body whose proprietary rights are directly or indirectly owned for more than fifty percent (50%) by an entity referred to in point (a) of this Section or (c) a natural or legal person, entity or body acting on behalf or at the direction of an entity referred to in point (a) or (b) of this Section. The Company shall confirm that all Subcontractors of any tier will provide such certification as a part of the Proposal. “Sanctions” shall mean measures aimed at maintaining or restoring international peace and security enacted by the United Nations and/or the European Union and/or the Poland and/or the United States, or any such sanctions law applicable to the Company or undertaking relating to or in connection with this submittal of Prequalification Questionnaire or undertakings, such as sectoral measures, economic and financial measures, or measures introduced against countries (embargoes), natural or legal persons or groups or non-state entities (blocking measures).
