Notice No.:	Poland AP1000: [SR No.: 26600-000-SR4-G00Y-00008]
Description:	1. Experienced and qualified Companies capable of supporting the Poland Nuclear Power Plant project in the scope outlined below. Provide services that meet scope of work, specification, and other subcontract requirements. The scope of work includes, but is not limited to: Construction Permit Designs Development: • Development of the construction permit designs documentation prepared in accordance with the Polish Building Law based on provided design inputs for Balance of Plant permanent plant structures. o This includes 4 large construction permit design packages o Includes development of Land Development Plan (Vol. I), Architectural and Construction (Vol. II), and Technical Design (Vol. III) for each of these 4 CPDs o Including permit application forms and formal attachments • Design input will be in the form of Bechtel prepared design drawings/calculations or construction permit design documentation from Westinghouse or design/build contractors for incorporation into larger construction permit design submittal packages to authorities. • Any required verification of the provided Bechtel design inputs to allow certification of construction permit design. Including certification by any subject matter experts (such as fire protection subject matter expert). • Development of water permits required to be submitted along with construction permit design to authorities.

	• Review for derogations and preparation of derogation applications (including development of any required expertise's) for authority submittal. • Confirmation that the construction permit design complies with the EIA Decision, the EIA reassessment report, and other authority decisions provided by BUYER. • Development of the documentation will be required in both English and Polish. • Support in case of any corrections/supplementations required during the authority proceedings. • Author's supervision services over the design documentation prepared under this contract. General Designer Support: • General designer responsible for overall permitting coordination for interfaces between permit boundaries presented in the permitting strategy. Responsibilities shall include but are not limited to: o Design Integration and Interface Management o Site Development Plan (PZT) Management o Regulatory and Permitting Coordination o Multidisciplinary Coordination o Design Change Management o Construction and Future Development Coordination • Scope includes coordination of 13 permit packages which include design inputs from both Consortium partners, Bechtel and Westinghouse, and third parties. Interested companies must register/update their Company's information in Bechtel's iSupplier portal at https:// www.bechtel.com/supplier/. If Company has any questions or to express interest in bidding on this requirement, Company shall notify Bechtel's Contact Person. Once notified, Bechtel shall provide the interested party the Poland Prequalification Questionnaire where interested party would complete with response to Bechtel for review. Bechtel notes that previous proven capabilities and experience of similar scale of scope and complexity of the requirements will be mandatory and additional documentation / evidence may be required. 2. The prequalification criteria shall be included in the prequalification questionnaire, examples thereof include demonstration of (i) experience in furnishing similar scopes of Support Services in past or current projects, (ii) availability of equipment/personnel/facilities for performance of scope of the required services, (iii) safety record (iv) and quality compliance to ISO 9001:2015 or quality program that is comparable to ISO 9001 (to be approved by Bechtel and PEJ), (v) compliance to certification of legally mandatory requirements, (vi) financial standing (solvency), and (vii) verification of organizational capabilities. Office visits prior to RFQ issuance may be required. 3. Upon Bechtel's evaluation of your response to the Poland Prequalification Questionnaire, Bechtel will notify if your Company meets, conditionally meets, or does not meet the prequalification requirements that closely match the requirements. Your Company's submission of the Prequalification Questionnaire does not automatically qualify your Company to be a prequalified Company for the Scope. Bechtel reserves the right to exclude any of the following from this Competitive Bidding process: a. any economic operator that is directly or indirectly owned or controlled by an entity from a country not covered by the Government Procurement Agreement ("GPA") with the EU; or

	b. economic operators who rely in the Competitive Bidding process on capacities of any entities from countries not covered by the GPA with the EU. Such decision of Bechtel shall not be subject to complaint. 4. Each prequalified Company will be required to execute a Non-Disclosure Agreement (NDA). 5. Companies meeting the prequalification criteria and who have executed the NDA will be invited to submit the proposals for Construction Permit Designs Documentation Development in Support of Poland AP1000 Project. 6. The Request for Quotation (RFQ) shall include the proposal questionnaire(s), scope of work, specifications, drawings, datasheets, terms and conditions, award criteria, and schedule data. The RFQ shall be issued via Bechtel's Digital Supply Chain System automation tool. Supplier User Guides: https://www.bechtel.com/supplier/#registration-Info 7. The scope of work for this package consists of scope provided in Point 1 above. NOTE: The estimates provided above are APPROXIMATE only. The intent is to give bidders an idea of the scale of the project. Actual numbers will be included in the official bid package. 8. Proposal may be provided in EURO, PLN, USD. Furthermore, the proposals will be requested as Time and Material with agreement to unit rates for change management. 9. Award criteria shall be based on Weighted Technical Evaluation, Lowest Evaluated Price. Consideration of the following key criteria, together with cost, will determine the final decision for award. Details will further be defined in the Bid Document(s) and during the RFQ phase. For the weighted technical Evaluation shall be based on the following factors: a. Technical Capability b. Previous Proven Relevant Experience c. Delivery / Management Team d. Quality Program e. Schedule Compliance The evaluation factors to determine lowest evaluated price shall be based on the commercial factors that impact overall cost, such as freight, Carbon Border Adjustment Mechanism (CBAM) requirements, payment terms, performance and payment securities, and insurance. Buyer may divide the award among more than one Supplier if this is in the best interest of Buyer. Suppliers must specifically list in their proposal all the country(ies) of origin for each major component. All materials must meet the requirements of the applicable codes and specifications of the RFQ. 10. Any Companies that do not meet the legally mandatory compliance requirement will be excluded. 11. The procedure for the Company to gain access to classified information, as required, will be subject to compliance with the executed NDA, Applicable Export Laws, Applicable Laws, and Applicable Safeguards Laws which will be included in the RFQ document. 12. The Customer shall be responsible for monitoring the Contractor's compliance with the competitive procedure. Thus, the Contractor shall transmit any complaint received to the Customer. The Customer reserves the right to audit of the Contractor's selection of subcontractors under the competitive procedure, in line with the requirements of the Prime Contract.
