The global influence of rapid urbanization, population growth, and extreme weather all drive up worldwide demand for high-performance infrastructure. This means that cities, local and regional bodies, and national governments are pursuing diverse initiatives that range from replacing legacy systems to building new urban areas from the ground up.

Whether it involves the unique challenges of an airport and the innovation to drive the renewables revolution, or the infrastructure behind a new or modernized railway, communications network, or civil undertaking, Bechtel can tackle the entire project lifecycle.

From planning, design, procurement, and construction through to delivery, operations, and maintenance, we deliver the highest value for all stakeholders. In particular, we champion innovative value-based procurement to address risk and encourage investment in the smart infrastructure on which successful global economies depend.

Looking to the future

Civil

Who is Bechtel

Our customers’ projects are an investment in the future. They create jobs and economics, improve the resiliency of the world’s infrastructure; increase access to energy, resources, and vital services; and make the world a safer, cleaner place.

While our expertise ensures delivery, ongoing collaboration is critical to long-term success. Since 1898, we have been the trusted partner of industry and governments worldwide. Differentiated by our people and our relentless drive to deliver successful outcomes, we have helped our customers complete more than 25,000 projects in 160 countries on all 7 continents.

We serve the Infrastructure; Nuclear, Security & Environmental; Oil, Gas & Chemicals; and Mining & Metals markets. Our services span from initial planning and investment, through start-up and operations. Come to Bechtel for our values – ethics, safety, quality, people, culture, relationships, innovation and sustainability, and our commitment to integrity, respect, collaboration, inclusivity, and ability. We are who we believe our customers can expect, and how we deliver.
Jubail Industrial City, Saudi Arabia
Role: Engineering, procurement, construction, program management
Customer: The Royal Commission for Jubal and Hercules
Jubal is one of the most remarkable achievements—a city built from the sand up and the biggest civil engineering project in modern times. The development comprises two ports, residential accommodation and education facilities, roads, bridges, medical centers, and power, water and waste facilities. Jubail has worked as a major player in the global petrochemical market.

Jubail National Infrastructure Program
Role: Infrastructure master planning, construction management, staffing services
Customer: Government of Gabon
Bechtel and the Government of Gabon developed a national master plan for infrastructure, and a public works agency that we helped to establish and are now supporting. The agency is delivering ambitious projects to serve the nation’s 15 million people. The plan and resulting buildout covers education, housing and urbanization, transportation, water and power, and medical services.

Kosovo Motorway Routes 6 and 7
Role: Design, procurement, construction, construction management
Customer: Government of Kosovo
Bechtel and joint-venture partner ENKA completed Kosovo’s two motorways—Route 6 and Route 7. Together the motorways create a transport corridor from Kosovo’s border with Albania, via its capital, to its border with Macedonia. The four-lane motorways form a key part of Kosovos national roads network and link in with Comorom-A—a major pan-European transport corridor.

Khalifa Port & KIZAD, UAE
Role: Program management
Customer: Abu Dhabi Ports Company
This massive port and industrial zone program in the UAE’s largest infrastructure effort to date. The project included constructing a vast port island, a breakwater, causeways and bridges from the land to a new onshore port, the onshore port itself, and an industrial zone for commercial and manufacturing facilities. The port’s strategic location offers the industrial zone tenants unprecedented access to global markets.

Key projects
The timeline below presents a snapshot of our projects in the early 20th century and the over past 50 years.

1919 – opening Jubail Industrial City, Saudi Arabia
1968 – Los Angeles International Hotel, Germany
1972 – Olympic Summer Games, USA
1992 – Summer Olympic Games, Barcelona
1996 – Summer Olympic Games, Atlanta
2000 – Summer Olympic Games, Sydney
2010 – Olympic Winter Games, Vancouver
2008 – Summer Olympic Games, Beijing
2012 – Summer Olympic Games, London
2016 – Summer Olympic Games, Rio de Janeiro
2020 – Winter Olympic Games, Beijing
2020 – X Games, Santiago
2019 – Winter Olympic Games, Japan
2021 – Winter Olympic Games, Beijing
2022 – Winter Olympic Games, Beijing
2022 – FIFA World Cup, Qatar
2023 – Olympic Games, Paris
2025 – Olympic Games, Los Angeles
2030 – Olympic Games, Tokyo
2034 – Olympic Games, Paris
2038 – Olympic Games, Helsinki
2042 – Olympic Games, Tokyo
2046 – Olympic Games, New York
2050 – Olympic Games, Tokyo
